THURSDAY, JULY 28, 1895.

## ANNOUNCEMENTS.

**CONGRESS.**  
**COWLEY**—We are authorized to announce W. T. Cowley, of Christian County, as a candidate for Congress from the Second Congressional District, subject to the action of the Republican party.

**JOLLY**—We are authorized to announce Hon. George W. Jolly, of Davies County, as a candidate for Congress from the Second Congressional District, subject to the action of the Republican party.

**HON. SAMUEL J. PUGH**, of Vanceburg, has been re-elected for Congress by the Republicans of the Ninth district. The Democrats have nominated their strongest man, but Mr. Pugh will have no difficulty in succeeding himself.

**THE London Statist** says: We think America has entered upon a period of great prosperity, which will last for years if no great folly is committed. We hope the Republicans will have the firmness and patriotism to resist the politicians and refuse to allow unwise currency legislation.

**FORMER editor Desha Breckinridge**, now Lieutenant in the United States army has been ordered to the front and has left for Newport News, where he will embark for Porto Rico. Mr. Breckinridge was fearless in the conduct of his paper and will be valued on the field.

**Born candidates** for the Republican nomination for Judge of the Court of Appeals in the Third appellate district, Judge C. W. Lester and Judge Wallace Jones, are working for complete harmony in the party ranks. It is predicted that united support will be given to the successful candidate.

**The imports of gold** during the fiscal year just closed were the largest in the history of the country, reaching a total of \$105,955,279, and the balance of trade in our favor was \$615,259,024. In the light of such figures it is proper to say that the election of 1896 was rightly settled.—Globe-Democrat.

**The Chinch-Bug.**  
Farmers who are suffering from the work of the chinch-bug, or who desire to fortify themselves against such a contingency, should write to the Kentucky Agricultural Experiment Station, Lexington, Ky., with a request for "Bulletin No. 74," which is a very comprehensive paper on the chinch-bug, by Mr. H. Gorman, entomologist and botanist.

**A High Tribute.**  
Speaking of President McKinley the Brooklyn Eagle (independent Democrat) says: His administration is bound to achieve greatness as well as to have greatness thrust upon it; but his personal conduct or employment of unexpected powers has been so admirable, and his bearing has been so noble, so natural, so sympathetic, so dignified and so consistent that we shall be surprised, if in the retrospect of history, he is not reverently regarded to be as truly a providential man in the presidency as any of his predecessors in times of great national stress and strain have been deemed to be. To him is largely due the fact that congress has been a tribunal of great public service instead of a wrangling menagerie of quarrels, marplots, and of the victims of cross purposes.

**Balance of Trade.**  
Our exports for the last fiscal year were enormous. The figures show that the exports were twice as great as the imports, and the exports of manufactures exceeded the imports of manufactures—the first time in history that either of these things have come about.

The balance of trade in our favor in the fiscal year just ended was \$615,259,024 against \$286,263,144 in the previous year 1896-97, which year showed a greater trade balance than any previous year, only five other years having reached the \$200,000,000 mark.

The total gold imports in excess of exports for the year was \$104,985,299, exceeding the record of any other year.

## Christian Soldiers.

Presbyterian Journal, Philadelphia.

It is very gratifying to read the testimonies to the Christian character of prominent officers of the army and navy. Men are made braver through faith in God and belief in His direction and care. What Christian could read without a thrill of pleasure the account of the action of Capt. Phillip, of the Texas. Admiral Sampson, we understand, is a member of the Church of the Covenant, of Washington. Admiral Dewey is a devout member of the Episcopal Church. Commodore Watson was an elder in St. John's San Francisco. Lieutenant Hobson, now so famous was president of a Y. M. C. A., and the list might be greatly extended. To crown the gratification which such facts inspire is the knowledge of our noble president's sincere religious character, the latest manifestation of which is his proclamation calling upon the people to offer up thanks-giving to God for victory and prayer for protection to our soldiers and restored peace to the land.

## Crops.

From Bradstreet's.  
Just how fortunately located the United States has been during the past year in the matter of crop yields can hardly be appreciated unless the record of crop shortages in other countries is examined. Of course we all know that cereal yields in Europe, in South America and in Australia were reduced in 1897, but it has remained till now to learn that the export of cereals has been prohibited from the port of Chinkiang on account of the great scarcity of those commodities in the Liang Kiang province, which is usually regarded as the garden of the Chinese Empire.

## KENTUCKY NEWS NOTES.

Rev. G. E. Thompson brought to this office yesterday a curious freak of nature in shape of an Irish potato, which had grown through a small hole in an old piece of tin. The potato had entered the hole when small and when it had filled it and could grow no more in the middle, it continued to grow from each end until it resembled very much a rat caught in a trap.—Todd County Times.

Mr. J. R. Witty, an old citizen of Metcalfe county, died at his home at Sumner Shade last Saturday of consumption. Mr. Witty's health has been failing for years. He was Metcalfe county's first Sheriff, and has been quite prominent in the affairs of his county since its organization.—Glasgow Republican.

**Whitesville, July 19.**—Mr. and Mrs. J. Wesley Barrett, who live a few miles north of town celebrated the fiftieth anniversary of their marriage on May 29. The entire family, consisting of the old people, nine children, nine grandchildren and two great-grandchildren, were present. Each of the families present brought a well filled basket of good things. When dinner was announced Mr. and Mrs. Barrett were surprised to find seven dollars under each of their plates. The contribution was made up by each one of the children contributing one dollar, the grand children a quarter and the great grandchildren ten cents. Mr. and Mrs. Barrett are probably the first couple to celebrate their golden anniversary near here. Mr. Barrett is 74 years of age and Mrs. Barrett 69, and both seem destined for many years of life yet.—Owensboro Messenger.

The eldest inhabitant of Morgantown, and most likely of Butler county, died last Saturday morning old Aunt Louisa Carson, who has been bent with age for the last forty years, departed this life. Her exact age is difficult to arrive at. She was, however, all the way from 100 to 115 years old. When a slave she belonged to Uncle Jimmie D. Carson, the saddler, and has been maintained for several years through the kind donations of her young master, James T. Carson, of Louisville. Smith Carson, the giant, is Aunt Louisa's grandson, and nearest relative here.—Morgantown Republican.

A large tree in Mrs. Mean's pasture north of town, was struck by lightning at 12:30 Wednesday. The tree is about one hundred and fifty years in rear of the dwelling. The tree was riddled by the lightning, and killed a fine cow which Mr. G. M. Steel had been pasturing there for several months. The cow belonged to Mr. Bridge Kennedy. She was a thoroughbred jersey and valued very highly by Mr. Kennedy. Several other cows were under the tree but none were killed. The same bolt passed through the hall of Mrs. Mean's residence and struck a tree in the front yard. The trees struck are fully two hundred yards apart. It is miraculous how the residence escaped destruction.—Hopkinsville Independent.

Messrs. Chas. Drury and L. S. Clark, two prosperous farmers of the Pike's Peak vicinity, have finished delivering a portion of their crop, several hundred bushels of wheat, to the Uniontown Roller Mills. The price paid for the wheat was seventy cents, the highest market price, and when the excellency of the wheat is known it can readily be seen that the price was a deserving one. The wheat graded 63 pounds to the bushel and is the best crops that have yet come to our notice. The Pike Peak vicinity is an excellent agricultural district and one of the finest wheat in the country is raised by the farmers living there.—Uniontown Telegram.

## ORGANIZATION OF THE ARMY

Statement of What Has Been Accomplished in Ninety Days.

Of the 216,500 Volunteers Called For 212,000 Are in the Field.

Washington, D. C., July 25.—Adj. Gen. Corbin to-night made public a statement of the progress made in the organization of the regular and volunteer armies of the United States up to and including July 24. In the ninety days which have elapsed since the President issued his first call for volunteers an army of 261,400 men has been recruited, mustered, equipped and placed in the field, an achievement that has elicited surprise and admiration from the best informed military authorities of Europe.

The personnel of the army is far superior to that of any body of men hitherto raised for military purposes by the United States. Every man recruited, whether for the regular or for the volunteer army, has undergone a careful physical examination, conducted by disinterested and competent officers. As a general proposition, therefore, the army is physically without flaw. Quite naturally the requirements for the regular service are more rigid than those for the volunteers, because recruits for the regular army, being considered merely as individuals, are obliged to undergo a more severe examination than the volunteers, many of whom are taken into the service as organizations. The statement indicates that only one in four applicants for admission to the regular army was accepted by the mustering officers and medical examiners. In this way a notably high class of men has been secured for the army.

Of the 216,500 volunteers authorized by Congress, 212,000 have been placed in the field, nearly all of them fully equipped. In a few days the entire volunteer army will be thoroughly organized into regiments, brigades, divisions and army corps. The aptitude for military discipline and instruction which the volunteers have evinced has created surprise among the representatives of foreign governments with the United States army. They agree that the Americans are the finest soldiers in the world.

Following is the consolidated statement made by Adj. Gen. Corbin:

April 20.—Joint resolution approved recognizing Cuban independence.  
April 22.—Approval of act for increasing the military establishment.  
April 23.—President's proclamation, first call for 125,000 volunteers.  
April 25.—An act declaring that war existed between the United States and Spain.  
April 26.—Approval of act for increase of the regular army.  
April 27.—General orders issued providing for increase of regular army.  
May 11.—Act approved to provide for volunteer brigade of engineers, not to exceed 3500, and an additional force of immunes, not to exceed 10,000.  
April 28.—Strength of regular army, including increase, 61,000.  
April 30.—Actual strength of regular army, 26,500.  
Recruits obtained, to include July 24, 24,900, making a present total of 51,400; and deducting the casualties, 2000, we have as available 49,400 men in the regular army.

July 24.—Balance of recruits required for regular army, 11,600.  
April 23.—Strength of volunteers called out, 125,000.  
Special United States volunteer cavalry, 3000.  
May 11.—Brigade of United States volunteer engineers, 3500. Ten regiments of immunes, 10,000.  
May 25.—Second call, 75,000.  
Total volunteer army, 216,500.

July 24.—Present strength to date of volunteer army, physically examined, enrolled, mustered into United States service, and for most part equipped, 212,000.  
July 24.—Balance of recruits required for volunteer army, 4500.  
Balance of recruits required for regular army, 11,600.  
Total recruits required, 16,100.  
July 24.—Total strength to date of regular and volunteer armies, 261,400.  
Aggregate, 277,500.

Note.—The above figures do not include signal and hospital corps men respectively. The 24,900 recruits obtained for the increase of the regular army authorized after war was declared to exist were selected from about 100,000 applicants by a limited number of recruiting officers but illy spared from their respective regiments, and for the most part strangers in the country canvassed and during a period of competition by State authorities for the same men. Returns will show a progressive increase as this competition ceases.

C. B. Fraser, of Trigg county, has a sword that was carried by his great-grandfather in the French and Indian war, and with which he sealed the Heights of Abraham with General Wolfe in the battle of Quebec, which was fought on the 13th of September 1759, between Generals Wolfe and Montcalm. The blade of the sword is straight and about thirty inches long, ornamented on each side, near the hilt, with the graven picture of a fox. The hilt is about six inches long and has a common steel guard. The highly prized relic is in a good state of preservation.

Your friends may smile  
But that tired feeling  
Means danger. It  
Indicates impoverished  
And impure blood.  
This condition may  
Lead to serious illness.  
It should be promptly  
Overcome by taking  
Hood's Sarsaparilla,  
Which purifies and  
Enriches the blood,  
Strengthens the nerves,  
Tones the stomach,  
Creates an appetite,  
And builds up  
Energizes and vitalizes  
The whole system.  
Be sure to get  
Only Hood's.

## AWFUL DEED OF TRAMPS.

Tried to Wreck an L. & N. Fast Passenger Train.

## FIVE MEN WERE ARRESTED.

GLASGOW JUNCTION, Ky., July 25.—Five tramps are in jail at Glasgow Junction, charged with attempting to wreck L. & N. passenger train, No. 4, due in Louisville at 12:25.

About a mile this side of Glasgow Junction a section hand found an iron "fish-plate" on the track, and going back he was just in time to flag the passenger train. The "fish-plate" is used under the rails where they join each other in order to make them firm and fast. The one in question had been placed on top of the rail and secured there fast enough to have sent the train rolling into the ditch if the section hand had not happened to find it in time.

Detective C. W. Williams, in the employ of the L. & N., was notified. He learned that the conductor of a local freight train had put tramps off his train between Glasgow Junction and Cave City. He summoned a posse of section hands, and the party boarded a handcar and started in pursuit. They overhauled their game, and all five of the tramps were arrested and taken back to Glasgow Junction.

## FROM THE EXCHANGES.

For several days past, Tom Rose, a crazy negro man, has been running about in the woods west of town in a nude condition. His clothes were found and Tuesday night a party of men watched them expecting the negro to return for them. He did so and was captured. He has been living on green corn that he would steal from the fields. His body was badly lacerated by briars and thorns.—Murray Ledger.

At present Livingston county has the best crops it ever has had. As a general thing the crops have been well cultivated, and the acreage is greater than ever before, and should the good seasons continue the farmer will have to pull down their old barns and build new ones before they can house their crops.—Smithland Banner.

The first load of watermelons raised in the county this season was brought to town Monday by Mr. George Bale, of Stanley.—Owensboro Globe Era.

Mr. E. M. Moss, the well-known and well-informed bicycle dealer, estimates that there are 700 bicycles in use in Hopkinsville and a great many more in the county. There are so far only four chainless wheels in the county, two here and two at Pembroke.—Hopkinsville Kentuckian.

Mr. George Hamilton, of Mt. Sterling, the largest tobacco grower in the State, was on the breaks this week, selling tobacco at the Buckner warehouse. He had a lot of eleven hogheads of Burley, not particularly good, on which he realized an average of \$12.50 a hundred. He was much pleased and said he would ship more hereafter. Heretofore Mr. Hamilton has sold exclusively in Cincinnati. He grows about 500 acres of Burley every year on his several farms. With his brother Carroll he owns about 4,000 acres of Bluegrass land, enough for a dukedom.—Courier-Journal.

A small cave oyster box and its contents, weighing in all eleven pounds, was brought in from Jackson over the L. & E. In it were the remains of two Federal soldiers who fought in the Civil war. Probably very little more than the skulls still remained. The remains will be reinterred at the National Lot at the Lexington Cemetery by Col. W. R. Milward. The remains are those of John Rouse, Commissary Sergeant of the Fourteenth Kentucky Volunteer Cavalry, who enlisted in Company M at Irvine, Estill County, and died August 16, 1863, and George Melton of Company H, same regiment who died on August 15, 1863, in Breathitt County.—Lexington Herald.

## LOCOMOTIVE BLASTS.

A wreck on the main line of the L. & N. at Horse Cave last Tuesday, caused several hours delay to passenger trains. Several of the operators who lately enlisted in the service of Uncle Sam felt somewhat aggrieved when they arrived at Chickamauga and found they would have to lead a helping hand to properly prepare the camp ground. The boys had picked for themselves a life of ease, and when called upon to handle a pick and shovel, it almost broke their hearts. Some of the boys who formerly worked on this division were in the crew that was required to dig ditches and do other manual labor around camp and who were heard to exclaim themselves, "I wish I were back home with ma."

The depots and other buildings along the Henderson division are now being adorned with new coats of paint and much improvement in appearance is the result. Supervisor John Davis, after a sojourn at Dawson on account of ill health, has returned to Springfield, Tenn., and will soon be able to resume work if he continues to improve.

Supervisor Sullivan and a large force of men laid several miles of eighty-pound steel rail last week. We believe this is the first of that weight laid on the Henderson division.

The past and present month seem to be bad ones for the boys, as quite a number of them have been dismissed from the employ of the company for different causes.

The boys say that Master of Trains Devney sticks close to them when they try to do right, but when they wander away in unforbidden paths, he gives them the cold shoulder and often their walking papers.

Conductor Herber met with a painful accident, last Monday. He fell down and a board of tobacco rolled on his foot, tearing off a toe nail and doing other damage, which now causes him to be on the invalid list.

Night Yardmaster Hlackwell's residence was visited by thieves last Sunday night. Dispatcher Woodbridge, when last heard from was at Colorado Springs, enjoying the bracing western winds.

Section Foreman Edmonson, of the Seabee section, met with a painful accident, last Monday. While assisting in unloading ballast, he was hit on the head by a piece of timber, and received a scalp wound.

While assisting in leading tobacco hogheads at Seabee, last Monday, a colored man lost one of his fingers by having it caught between a car and hoghead, cutting it off.

After a few weeks' rest, Conductor Morgan is back at work on the Providence train. He spent sometime at Dawson, and as a result feels much improved.

As a passenger conductor, Will Cozart is making a success. He is popular with the railroad men and the traveling public, and well qualified for the business.

A Pullman conductor stole something himself against the marble counter of the St. Charles Hotel. He had just come in from the transcontinental run. "The public is dead sure on Spanish names," said he, as he turned away from looking over the register. "You may not believe it, but I have found a strong prejudice against the Spanish names on the Pullman cars, and the company is arranging to change many of them. The fire of patriotism is too hot just at present to put up with anything that even suggests a don. The company isn't at all, but one of the superintendents told me yesterday that several of the cars had already been sent to the shops to have the names changed. Some of the most popular names in use must go, because they suggest the Queen Regent, little Alfonso or some city in Spain. For example, such cars as Cadix, Bilbao, Castile, Seville, Mercedes, Mexico, Louisiana and Andalusia are being regularly boycotted. And this is no joke. In Pittsburgh the other day a passenger took a day coach rather than pay for a seat in the car named Castile. Up on the Erie road last week the handsome car Blanco was pelted with stones and mud while it was standing outside one of the best stations on the system. The people simply won't have these Spanish names. I just heard today how the Mercedes had been turned down on the Blandville line a week ago, and how the porter had ridden 200 miles without a soul in his car. Of course he kicked. Who wouldn't? The porters are discontented, and say there is no use talking the fine Spanish names go these days, and when a porter gets leary of his car he had as well take it off."

## DOWN IN THE MINES.

Now the report comes that the metal in much of the properties now used at Santiago and vicinity was dug from the iron mines in that region.

Since the capture of Santiago work in the iron mines near there has been resumed, thus giving work to a large force of men.

During the past week several miners claiming to be from Illinois and other northern states have made their appearance here in search of work. Some of them claimed that they once worked in this country at what was called the Ward mines, but close inquiry reveals the fact that there never was such a mine in this country.

Ben Brieve and son, formerly employees of the St. Bernard Coal Co., have severed their connection with said company and will now be found with the Reinecke Coal Co.

John Hogan, soliciting agent for the Hecla Coal Co., spent last week in Memphis, Tenn., and other points in the South.

Thos. Robinson, foreman of the Empire mines, reports work there good now, the mines running four or five days in the week.

D. M. Evans has returned from a business trip to Memphis, Tenn.

Joe Kline, for years past a miner at Bartonsville, has taken his departure for the north, where he will go to work in some coal mine.

D. W. Umstead is spending a few days at Dawson.

The railroad track leading to the Woodstock mine is being worked and we suppose work will soon be resumed there.

The Manufacturers' Record says that three new coal and coke companies filed articles of incorporation in West Virginia last week.

North Carolina is now coming to the front as a mining state, therefore it is no wonder the people take more interest in a protective tariff.

At Saginaw, Mich., many shafts are being sunk to prove the location of coal.

Perfect Health.  
Keep the system in perfect order by the occasional use of  
at's Liver Pills. They regulate the bowels and produce  
A Vigorous Body.  
For sick headache, malaria, biliousness, constipation and kindred diseases, an absolute cure  
TUTT'S LIVER PILLS

been rebuilt and miners are working again. At Bloomington, Ill., wages for mining have been reduced, leaving the rate in the second vein 50 cents and in the third vein 60 cents.

A meeting of the Ohio coal operators at Chicago, on Wednesday last, seemed to be of the opinion that a reduction in wages for mining was absolutely necessary.

At a recent meeting of the Illinois, Ind., miners of the Black coal district they resolved to quit mining by contract. All the miners of the McIntosh Coal Co. struck the 15th because the company wished them to work under contract.

With the exception of Sullivan county, the coal industry of Indiana is almost at a standstill. The Sullivan county operators have railroad contracts to keep them busy. The situation is worse than the Chicago agreement of January last.

Pana, Ill., July 23.—Several non-union miners were severely beaten while en route to the shafts to resume work. Only two miners entered Springfield mine they being escorted to the mine by Operators D. I. and Corwin Overholt with Winchesters, preventing the union miners interfering. One non-union miner named Henderson while en route to Peaswell mine was intercepted and badly punished.

The operators and miners' organization have been given notice by the State Board of Arbitration of a decision the board that 33¢ should be paid for mine run mining. The 15¢ operators to furnish all supplies except powder and that the coupon system in use by the operators should be abolished. The miners have given notice that if they will not be governed in any particular by the board's decision.

The Transvaal gold mines are continually yielding greater quantities of the precious metal each month. The production of May reached 365,016 ounces, valued at over \$6,500,000. A month ago it was predicted that the total amount mined during the year would reach \$75,000,000, an increase of value for any mining district. But the May output is at the rate of \$75,000,000 for the twelve months, and the future increases in the Transvaal will be in large figures. It may even be believed that \$100,000,000 will not be too large for the year, since each month since January 1, 1895, has seen an augmentation in the quantity. How long this source will supply such a vast stock of gold no one can say, though some mining experts have predicted that it can not last more than a few years. A comparative few years—few, that is beside the number which have gone by since California and Australia became fields of production. But if it only holds out for four or five years, which seems a reasonable period, considering the character of the reefs, the effect of the immense addition of such resources to the world's present resources of it should be more important than perhaps anybody now anticipates.—Providence Herald.

Although the development of the Pocomoke coal territory was initiated as recently as 1893, its reputation for fuel purposes has become international, and today it is being used by vessels of all classes as bunker coal, including the ships of the navy, while it finds a ready market to the principal manufacturing centers of the North, as readers of the Manufacturers' Record are aware.

Referring to this industry, a correspondent of the Richmond Dispatch says: "When some five or six years ago there was no strike in the mines of England and Wales, this coal found its way to the Cape Verde and other Eastern islands, and some of it was actually imported into London, and, attracting the attention of the British admiralty, it was, tested by them. Another strike has come in England and Wales, and the coaling stations in the Eastern islands of Cape Verde, Cape of Good Hope, etc., are having to look to the Atlantic coast of America for a supply of coal, and although Pocomoke is higher than the Canadian coals, there is a demand for it at Cape Verde and the Cape of Good Hope, the English contractors offering a high price for it, and giving a guarantee that under no circumstances will it be sold, either directly or indirectly, to Spanish vessels."

"The trade has largely increased with the West India islands, especially St. Lucia, and within the last sixty days the British admiralty have purchased two cargoes for consignment to the naval agent at Bermuda. Several foreign governments are in treaty for supplies of this coal, and our own government has bought largely of it to send to Key West and Honolulu, and has just purchased a cargo to send in Manila."

## Hanson Inklings.

C. M. Livingston and family, of Adairville, are visiting relatives here.

Lank Wilson, who has been confined to his bed for some months with malaria and rheumatism is still quite sick.

The Misses Lovelace, of Louisville, are visiting relatives and friends here.

James Edge and family, of this place, are visiting relatives in Clarksville this week.

Henry Ashby, W. W. Brooks and J. T. Stanton took in the excursion to Clarksville, last Sunday.

The picnic given here last Saturday for the benefit of the Baptist church at this place, was well attended, and was also a success from a financial standpoint.

A sleek fellow who gave his name as Johnson passed a worthless check on C. C. Wingert, L. Cordier's father-in-law, at this place, last week. The check was passed at the saloon, and besides the goods obtained got about nine dollars in money. As soon as the fake was discovered, parties pursued and arrested the stranger, who was taken to Madisonville and lodged in jail to await further investigation.

Two fiends in human form made a bold attack on Ralph Jones at his home a few miles west of town, last Friday afternoon. It is supposed that robbery or murder, or probably both, were their intention. Mr. Jones had been away from home for a few hours and when he returned he started to his room upstairs, and on reaching the second floor was confronted by two men heavily armed, who demanded his surrender. Mr. Jones fled from the house crying for help, and the would-be robbers pursued him only a short distance from the house, when they, too, fled and have not been overtaken. An attempt was made a short time before to allure him from his home by night, but the effort was a fruitless one.

Mr. George Spruce Gam Balaam is a scientific chemist, based on modern discoveries and compounds by chemicals of repute who have given thought and long discuses a life study. Ask your grocer to get a box of the Balaam's Life Study. It is in two sizes, 25c and 50c.

Sold by St. Bernard Drug Store.

## Lisman News.

Miss Ellie Rice visited at Providence last week.

Rev. Price, of Marion, filled his regular appointment here Sunday.

Wm. Baker is on the sick list this week.

Miss Olga Price, of Providence, is visiting here this week.

Mrs. John Jenkins, who has been sick for some time, is convalescing.

Miss Fannie Baker visited at Madisonville Saturday and Sunday.

Mr. Thos. Marshall is all smiles. It is a boy.

There will be a grand picnic and Sunday School basket meeting at Mitchell's Grove Saturday.

Mrs. D. W. Payne, of Providence is visiting her mother, Mrs. Wm. Haker this week.

Mrs. Tator, of Poole, visited Mrs. Syb Lynn at this place this week.

Mr. and Mrs. Ross Hockett visited the family of Dr. Martin at Hordley.

Mr. Kerney Rice and sons Whit and Otto visited St. Charles Saturday and Sunday.

Chinch lugs are doing a great damage to corn in this section.

Mrs. Sarah Kemp is still very sick.

Gabriel Tupper is visiting relatives in Caldwell County this week.

Mrs. Nannie Conley Tribune is visiting her father, at this place.

Mrs. Dora Riggs is visiting in Shady Grove.

If you are not a subscriber to THE BEE, you should be.

## Returned From Fishing.

Frankfort, Ky., July 25.—Audit. or S. H. Stone and Treasurer Long returned today from their fishing trip on Green river, and reported having had a delightful time.

**Annual Fair, Louisville Agricultural and Mechanical Association, Colored.**

For the above occasion the Illinois Central Railroad will sell round-trip tickets to Louisville and return at one fare for the round trip, tickets to be sold from August 16th to 20th inclusive, limited to August 22nd, 1895 for return. This will be a great meeting of the colored people and should be encouraged by them.

## War Map Free.

Latest official indexed maps of the world, Cuba and Philippine Islands for pocket use, issued by the Chicago & Northwestern R.R., free, for two cent stamp.

W. B. Kniskern, 22 Fifth avenue, Chicago, Ill.

Horsehoes made of aluminum have been introduced into the Russian cavalry and are said to be very satisfactory. The difference in weight as compared with the iron shoe is about two and a half ounces on each shoe.

The rush away from Klondike is likely to be as great this year as the rush in that direction has been. There is gold a plenty, but not supplies a plenty and prices for labor are low because of the oversupply.

It is said the Omaha exposition is not suffering for want of attention as a result of the war.

# FOR EVERY FOOT

There is the Right Shoe. Your Shoe is here. We make a point of fitting people Any house can sell shoes—once. We sell shoes over and over to the same people. Steady trade is the test of a Shoe Store. We have lots of such advertisements walking around over Hopkins County—they walk a good deal, the Shoes feel so easy and look "swell." Our Pingree & Smith, our Williams & Kneeland, our Ziegler Bros., our Sachs, our Wolfe Bros. and our "Battle Ax" Shoes can not be turned down.

Will contain

## LOCAL NEWS.

Ed Phillips spent Sunday last in Seabee.

Mr. John Rule left Monday for a few days sojourn in Dawson.

Olin Farnsworth, of Henderson, is visiting his grandparents here.

Farmers are feeling jubilant, the recent rains having fully assured the corn crop.

Miss Lucy Crenshaw is visiting friends and relatives in Hopkinsville this week.

Blackberries are still plenteous and sell for eight and one-third cents per gallon.

Moscow Croft has sold his call and is treating his domicile to a new coat of paint.

Mr. and Mrs. Jackson Williams, of St. Charles vicinity, visited the family of J. E. Day.

Reports from different sections of the county concur that wheat is yielding beyond expectation.

Mr. D. W. Roland and wife, of the Rose Creek country, visited relatives and friends in this city yesterday.

Miss Addie Lewton, of Bakers, Tenn., returned home Monday, after a stay of several months with friends here.

Miss Emma Hall, of Patoka, Ind., left for home yesterday after a visit of several days to Rev. C. C. Hall and family.

Mr. Henry Carpenter and Mrs. Annie Trouillas were married Tuesday evening by the Rev. C. C. Hall at the Methodist parsonage.

Miss Emma Wilson left Monday for Crittenden Springs and also places in Webster county, to spend several weeks with relatives and friends.

Mr. and Mrs. H. L. Ashby and son Paul, of Onton, came up Saturday to visit relatives and friends in the city. They left for home yesterday.

The county was greatly refreshed by a general shower Tuesday morning which lasted over an hour and during that time a 100-to-of an inch of rainfall. This will assure the corn crop though it will retard the threshing of wheat. From all parts of the county come the most cheering reports of abundant crops.

The congregation that worships at the Christian church should not fail to invoke some special blessings upon George Robinson for much needed improvements upon the windows of that sanctuary so that they can now be raised without the aid of a jack screw. Also for the new front steps by which people, other than professional acrobats, can now enter the church without jeopardizing life or limb.

Col. Richard Buckner, one of our leading farmers told us Tuesday that he had threshed 100 bushels of wheat from 60 acres. He said his crop would have yielded twenty bushels to the acre but some of it, owing to rankness had fallen so badly that he was unable to harvest it. He reports the best crop in his section seen for many years. Local market for the new crop opened at sixty cents per bushel.

He Got Nothing.  
Sunday night a nocturnal prowler invaded the residence of G. L. Blackwell, the night yardmaster at this place. Mrs. Blackwell was away on a visit and Mr. Blackwell was absent on duty. This gave the thief a clear coast and he deliberately went through all the belongings of the Blackwell domicile and the house next morning looked as if it had gone through a thorough course of pickpocketing. Entrance was effected by cutting away a screen over a rear window, then removing a stick above the sash. Nothing was missing that Mr. Blackwell could detect and he is at a loss to know why the thief should devote so much time trying to pry into his business.

### Serves Thieves and Dogs Alike.

Jim Vincent is a good night shot as will be seen from his experience last Friday night. About midnight he was aroused by a great rattling among his milk pans. Securing a Winchester he sallied out and found a dog engaged in skinning a large pan of milk. Jim drew a bead and landed him plump in the happy land of canine. He stacked arms and catching old Tray by the hind feet dragged him away to an obscure place. Returning he secured his artillery and sitting down he waited for more worlds to conquer. In a short time he heard some one monkeying with the door of his meat house wherein was hanging several choice "midwinters" of lacon. Now although the law allows everybody to "take sides", Jim was religiously opposed to the fellow taking any of the "sides" above mentioned and to "save his bacon," he made a sortie upon the enemy and commanded him to desist. The fellow desisted and likewise fled. Jim invited him to pause, but he declined. To diminish his velocity Jim took a sight on him and brought him down. After laying in a fresh stock of ammunition he again went out, but the man was gone. A large pool of blood showed where he had fallen and his pathway to the fence some distance farther was plainly traced in blood. At the fence the trail was lost as the wound was undoubtedly bound up by a confederate. A rumor was upon the streets Monday that a man not many miles hence had "accidentally" shot himself through the arm breaking one bone and much interest was felt in his case. One thing is certain the thief who values a whole hide will do well to "take roundance" on Jim Vincent after night fall.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local treatment, pronouncing it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from two drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc.

Always Welcome.  
Mr. Hiram Kirkwood, of White school house vicinity, paid us a call yesterday, which will be remembered by every attack of the office. Besides many kind words of good will and encouragement, he brought a sack of the finest apples we have seen this season. They were called the "maiden's blues" and would make a fellow smile to look upon them; so mellow that they wouldn't bear hard biting and were sweeter than cream and peaches. We called from labor to refreshment in less than a twinkling, and while we munched those delicious apples with eyes fast closed in ecstatic joy, for the first time in our life we realized that there were extenuating circumstances in Adam's case. Mr. Kirkwood has our undivided thanks, coupled with the wish that he may live longer than Methuselah and pay us a visit every year.

More Building.  
Marion McCord was awarded the contract Monday to build two three-room frame cottages for Henry C. Bourland. He will begin operations as soon as he can land the material. The building will occupy lots in the southern part of the city lately purchased by Mr. Bourland and will be finished up in first class manner. There was some pretty close figuring done on the work. In the three bids placed the two closest were within two dollars of the same figures and only \$4.25 intervened between the highest and lowest bidders.

A Toe-tal Loss.  
Pete Herli, the well known local conductor met with a painful accident Monday. While handling some freight at Seabee he got his foot beneath the chine of a hog-head of tobacco and crushed his great toe badly, the nail being entirely torn off by the fearful crush. He came on home here and had the wounded member dressed by Dr. Chatten, and is resting as well as could be expected after such a painful experience. His many friends regret his mishap and hope to see him again soon on the "North end."

Sixteen to One.  
There are sixteen guests sojourning in the chateau de Hopkins. They represent the standard colors and various ages. Most of them are slated for crimes that will entitle them to service in the penal institution of the grand old commonwealth. While we are loth to believe that a wave of blacksliding has struck our county, we are bound to admit that there seems to be a strong trend lately developed among our citizens to patronize this popular resort, an inclination which is never found in those who keep right in the middle of the straight and narrow way.

The State board of Health has been compelled to establish a quarantine against Jackson county. The Board used every means to get the county court to adopt some means to arrest the disease, but to no effect and strict quarantine became a necessity.

Better Than A Klonkie Cold Miso.  
Good health is priceless when once lost. When you have a slight cold or cough invest in a bottle of Dr. Otto's Spruce Gum Balsam, the returns are greater than a half interest in an Alaska gold mine, no gold cannot buy good health. Beware of a slight cold.  
Sold by St. Bernard Drug Store.

### G. A. R. ENCAMPMENT.

The Thirty-Second to be Held in Cincinnati, Sept. 5 to 10.

Great Preparation for Entertainment of Visitors.

Preliminary festivities, including parades, camp-fires, reunions, etc., will commence on Monday, September 5th, lasting throughout the week. The regular session of the Encampment will open at 10 o'clock on the morning of September 8th, 1898.

The Encampment has been secured for Cincinnati through the joint invitation of the Municipality, the Department of the State of Ohio, G. A. R.: the Local Posts of the Grand Army of the Republic, Chamber of Commerce, Young Men's Business Club, Builders' Exchange, Commercial Club, Merchants and Manufacturers Club, Manufacturers Association, and the citizens generally.

Cincinnati is jealous of the reputation she has earned for open-handed hospitality, and her people, determined that her record in this respect shall not suffer on this occasion, have entered into the preparation for this event with a vim and vigor that presages the most successful Reunion in the history of the Grand Army of the Republic.

The active work of preparation has been going on since October last, at which time committees were appointed, consisting of one thousand of our most prominent and public-spirited citizens. The character of these men, and the general interest which the people generally are manifesting, afford grounds for the belief that the Cincinnati Encampment of 1898 will long be pleasantly remembered by the grand old veterans who fought and bled in defense of their country's honor.

Transportation.  
Railroad Rates.—One of the most gratifying features of the work of preparation, so far as it has progressed up to the present time, is the prompt and generous acquiescence with which the railroad associations have responded to the requests of the Transportation Committee for reduced rates and other concessions to Cincinnati's guests upon this occasion.

A general uniform rate of one cent per mile has been secured upon all railroads entering in Cincinnati, together with liberal time limits, which will afford all visitors irrespective of the distance which they may have come, ample time for return, after the close of the Encampment.

Cincinnati enjoys the distinction of at present being but a few miles east of the center of population of the United States, according to the last census, and its peculiarly advantageous geographical location should attract an unusually large concourse of Grand Army people and their friends, thus affording a rare opportunity for meeting old comrades and acquaintances, and renewing friendships which were formed during those dark and bloody days when brother fought brother and the fate of the Union hung in the balance.

Cincinnati is a city of 400,000 inhabitants and leads in many lines of industry. The hotels and boarding accommodations are unlimited. Besides this free quarters will be provided in sixty-six school houses in the city and also at Camp Sherman, which latter place will accommodate 15,000 veterans.

Meets Your Needs.  
When you feel tired, languid, nervous and are troubled with pimples and eruptions, you will find Hood's Sarsaparilla exactly meets your needs. It purifies and enriches the blood and imparts to it the qualities needed to tone the nerves and nourish the whole system. It cures all blood humors.

'Squire Head Grieves.  
'Squire Jim Head has not as much confidence in humanity as he once possessed, and this is the reason why: Last Saturday he sold a calf for Tom Hodge and received therefor ten silver dollars. Being detained he did not get home until a rather late hour and decided that as the night had grown apace he would defer paying over Hodge's money till a future period. He retired and slept without rocking till the following morning when he arose hastily and made a dive for his pants and found himself in the same condition of "Brien O'Lynn" whom the poet tells us "had no breeches to wear." After "strict search" had been made within the building, the missing apparel was discovered near the yard gate. The ten dollars was "gone glimmering." Eighty-five cents in small change remained in the left pocket and his watch had not been taken as the thief most likely thought it was a "long wind" waterbury and nobody but Methuselah has ever had time to properly attend to hour mills of that breed. The 'Squire returns thanks to the considerate rogue for leaving him a little capital to resume the battle of life and would be under greater obligations if he would hurry up and return that ten dollars he borrowed without the formality of asking. Head has adopted the habit of sleeping with one eye open, and is now prepared to entertain nocturnal visitors with buckshot.

Lewis Warner, the wrecker of the Northampton National bank and the Northampton Savings bank was arrested in Louisville Saturday. He had resided some time in Louisville and had made an extensive acquaintance in that city. His defalcations aggregate \$640,000. He will be taken to his old home to face the result of his crime.

Rufe Stevens, a young man who lives near Cairo was arrested Monday upon a charge of highway robbery, and in default of \$200 bond now languishes in the Henderson jail. Although he bore a rather hard name, he offered no resistance and readily accompanied the officer.

Dr. Otto's Spruce Gum Balsam—the most pleasant and reliable remedy for coughs, colds, croup, and all soreness of the throat, chest and lungs. Large bottles, 25c, and 50c.  
Sold by St. Bernard Drug Store.

### The "Come-Outers."

Last Monday the Rev. Austin D. Hicks and his wife, nondescript preachers, who for the past two weeks have laid siege to this place, departed for Henderson. Of all the hermaphrodite creeds that ever struck this place these people certainly advocate the strangest. They are what is styled "Come-outers." They urge and beseech people to come out of the church and live Christian lives. They oppose all churches, secret societies and benevolent institutions, saying that they are creations of the Devil. They claim revelations from heaven, preach the second coming of Christ within two years, and claim divine healing. They rant an unceasing warfare upon the Christians of our town during their entire stay, preaching upon the streets, as no church would allow them a house of worship. They drew small crowds and excited disgust among both church people and sinners. They made no friends and left unlamented.

### They Were Pleased.

Mr. G. W. Warfield, of Clarksville, Tenn., and Mr. J. H. G. Slaughter, of St. Bethlehem, Tenn., spent a few days in our midst this week sightseeing. These gentlemen are coal agents for the St. Bernard Coal Co., and came up to headquarters to look around. Mr. Warfield is an old ex-Confederate soldier and related some hair-raising reminiscences during his sojourn with us.

Mr. Slaughter is a relative of Gus G. Slaughter, a pioneer citizen of this place and the founder of Slaughtersville. He had not visited this place since he used to come here to see his relative over twenty years ago. They were well pleased with the town and put in full time viewing the sights, and under the protection of Bryan Hopper navigated the placid waters of Loch Mary. They left for home Tuesday afternoon, very favorably impressed with the way things are carried on in this corner of the "deadening."

### Entitled to Pity.

Miss Bettie Stevens and Miss Kate Robinson left yesterday to visit relatives and friends in the Hanson country. They expect to return Sunday. During their absence our friend, George Robinson, will conduct an odd fellow's hall, as they are his housekeepers. As George is of a very timid disposition we will wager a ginger cake that he is in bed by sundown, repeating the little he can call to mind of "Now I lay me down to sleep," etc. A bright light will burn from evening twilight till sunrise, and when not wrapt in deep slumber, George will meditate with tightly closed eyes.

### Kentucky Soldier Dead.

Princeton, Ky., July 25.—Dixie Satterfield, of this county, received a telegram yesterday announcing the death of his wife's brother, Ed Wood, at Miami, Fla., of fever. He studied law here for months and was well known and popular. He went to Louisiana, his old home a year ago. At the breaking out of the war with Spain, he joined the Louisiana volunteers. His remains will be brought here.

### Grinding "Fine."

B. F. Brive, son and daughter, Mrs. Ann Carter, failed to materialize at Judge Cowell's sance Saturday afternoon and the Judge levied tribute upon the parties as follows: Ten dollars and costs was exacted from the old man for obstructing the progress of the law by resisting an officer. A V. and trimmings were required of the young man for raising sand contrary to statute law. Mrs. Carter sacrificed a ten for general cussedness and overestimating her capacity for villainous tanglefoot.

### Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors for Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all other diseases of the Throat, Chest and Lungs are cured by it. Call on St. Bernard Druggist, and get a trial bottle free. Every bottle guaranteed, or price refunded.

### He Wears a Son-ny Smile.

John D. Peyton has been soaring around in the seventh sphere of human happiness. His friends at first thought he had fallen heir to a vast estate, but later found that his felicity was directly traceable to a boy baby who had adventured in the household of the said Peyton. The new comer flipped the beam at ten pounds. Peyton lit late Saturday evening and resumed his usual avocations Monday.

Rufe Stevens, a young man who lives near Cairo was arrested Monday upon a charge of highway robbery, and in default of \$200 bond now languishes in the Henderson jail. Although he bore a rather hard name, he offered no resistance and readily accompanied the officer.

Dr. Otto's Spruce Gum Balsam—the most pleasant and reliable remedy for coughs, colds, croup, and all soreness of the throat, chest and lungs. Large bottles, 25c, and 50c.  
Sold by St. Bernard Drug Store.

### ICE CREAM SUPPER.

For the Benefit of Widows' and Orphans' Fund, to be Given

BY I. O. O. F. NEXT TUESDAY.

The members of the St. Bernard Lodge, No. 240, I. O. O. F., will give an ice cream supper at Masonic Hall, Tuesday night next, August 2, for the benefit of the Widows' and Orphans' Fund. The success of the undertaking is assured for the reason that the people of Earlington are ever ready to help along so laudable a cause, and the gentlemen and ladies who have charge of this affair are sure to make it most enjoyable.

### Good Luck Too Strongly Indicated

A note from our friend, Charles Egloff, calls the attention of the "hoss editor" to the old saying, that "a cat brings good luck," and states that seven cats have taken up their abode with him during the past week. He further adds that his "luck has turned for the better." It seems to the nag man that if it is true that a single cat will bring good luck, according to the rule of proportion, seven of these animals ought to bring about all the blessings in the cat-alogue, and taking this view of the matter, we would say that our friend may expect a cyclone of good fortune at any moment. But should a numerous delegation of pussies descend upon the "hoss editor," he is just pussylanimous enough to express his felices to some distant friend in California.

### Gone to the Country.

Mrs. Viola Todd, who has been in ill health during the past eight weeks, left for the country last Saturday with the hope that a change to country life would be beneficial in her case. She will stay with her father who lives two miles out on the St. Charles road. At last accounts she was reported better. We hope a few week's sojourn in the rural districts will restore her former health.

You will not know how much good Hood's Sarsaparilla will do you until you try it. Buy a bottle today and begin to take it.

### Fresh Paint.

A squadron of L. & N. painters descended upon our city a few days since and have slung lead and oil promiscuously since their landing. They gave the depot both a full internal and external dose, then lit on the band stand in Dickson Park and dosed it liberally. Thanks to the liberality of the L. & N., we get a new depot of a different hue every year, but the style of architecture remains the same, and like Tennyson's brook seems destined to "go on forever." Hues and colors alone are evanescent. However, we are thankful. If we cannot have a new depot, let us have the old one changed as often possible.

Jesse Phillips has a newspaper published at Pontypool, England, which contains a jingle of rhymes about our "flying squadron," written by "an Indiana subscriber." It is worthy of notice because an Indiana man's efforts on an American topic have found place in a foreign paper.

Walter Morgan, of Louisville, while en route to Lancaster, fell from his wheel overcome by heat, within a mile of his destination. His companion hurried on to Lancaster for assistance. On his return with a party of friends, Morgan was found dead. Morgan had been connected with McCauley's theatre for a number of years and was widely known in theatrical circles.

Sergeant Haugby, a popular officer in one of the Fourth Regiment companies met a shocking death at Somerset, Ky., on the 25th inst. In trying to save a comrade from falling, he stepped off the train at the end of the tunnel and fell through the trestle.

Considerable excitement prevails in Lexington among stock owners over the existence of that dread disease known as pink eye, which at present threatens to become epidemic. Several deaths have occurred in the vicinity, but it is believed that vigorous efforts will arrest and stamp out the fearful malady.

"There is nothing but soldiers for miles before us," said the Spaniards; "it is useless Toral-ly." And then Santiago fell.—L. A. W. Bulletin.

**CASTORIA**  
For Infants and Children.  
The Kind You Have Always Bought  
Bears the Signature of *Dr. J. C. Watson*

It is estimated that the Alaskan gold output this year will be at least \$20,000,000. About \$5,000,000 worth has already arrived at Pacific coast points.

OUR GUARANTEE \$100.00 IN GOLD.  
We will pay One Hundred Dollars in Gold for any and every case of cough and cold where no benefit is derived from the use of Dr. Otto's Spruce Gum Balsam. It contains nothing but purest ingredients and is so pleasant to take. Beware of imitations.  
Sold by St. Bernard Drug Store.

### Southern Railroads Gain.

In an article on the gross earnings of railroads for June and the first half of this year the Financial Chronicle estimates that the betterment of earnings as compared with the first six months of 1897 must have reached more than \$65,000,000. It calls particular attention to the fact that there are twenty roads or systems where the increase is in the neighborhood of \$1,000,000 or more. In one case the addition exceeds \$4,000,000.

There is the Southern Pacific Company, which for five months ended May 31 increased its earnings by \$4,361,162, which is nearly \$500,000 more than the improvement of the Pennsylvania Railroad for the same period. It is interesting to note the improvements in the Southern roads. Among the notable increases for six months were the Illinois Central, \$2,456,544; the Missouri Pacific, \$1,827,630; Louisville & Nashville, \$1,111,734; the Southern Railway, \$905,693; the Memphis division of the Southern Railway, \$101,210; Kansas City, Pittsburg & Gulf, \$671,699; Texas & Pacific, \$470,706; Norfolk & Western, \$339,226; Chesapeake & Ohio, \$329,797; Florida Central & Peninsular, \$314,693; Mobile & Ohio, \$198,062. The earnings of eleven roads in the central Southern group during June amounted to \$6,722,392, which were greater than the same six months in any year since 1892. The earnings of six trunk lines during the month amounted to \$8,420,538, less than those of the first six months of 1897, while the earnings of twenty-two middle and middle Western roads were \$6,378,986. Taken as a whole, the Southern railroads seem to be holding their own, and in some instances to be doing better than the roads in more thickly settled portions of the country, though there is hardly a class of roads which is not showing material improvement.

### A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has Lame Back and Weak Kidneys, Malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to Liver and Kidneys, is a blood purifier and nerve tonic. It cures Constipation, Headache, Fainting Spells, Sleeplessness and Melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at St. Bernard Drug Store.

### No Romance for Him.

Our sanctum was made radiant yesterday by the presence of Prof. E. B. Bourland, who lives adjacent the Fair grounds. The Professor "rid" out on a wheel to beam awhile upon his numerous friends. He stated that he had just concluded a prolonged spell of haying and that that gush about "raking the meadow fresh with hay" is all the thinnest kind of sickly romance which can be permanently cured by one hour's treatment with a pitchfork, when the mercury is "standing pat" at 100 in the shade.

Bucklen's Arnica Salve.  
The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chitblains, Corns and all Skin Eruptions, and positively cures Piles or no price required. It is guaranteed to give perfect satisfaction or money refunded. Price 25c per box. For Sale by St. Bernard Drug Store.

Mr. H. B. Stewart, of Boxville, and Miss Kate Parker, of Dixon, spent last Thursday with friends in the city.

### KENTUCKY TROOPS

Moved Toward Porto Rico, via Newport News.

General Fred Grant's Brigade, the First and Third Kentucky and Fifth Illinois have been moved from Chickamauga toward Porto Rico by way of Newport News. The First Kentucky was started from Rossville, where it boarded the train from Chickamauga at near midnight Tuesday.

The Third Kentucky was to get away yesterday but some fear was entertained that it might not be able to do so before this morning; owing to the considerable delay in the moving of the First.

The boys are all rejoiced at the move and are delighted to have Porto Rico as their destination.

### Death of an Old Citizen.

Mr. R. W. Williams, familiarly known as "Uncle Dick," died of lung trouble at Morton's Gap on the 25th, and was buried at Grapevine Cemetery the following day. Mr. Williams came from Christian County to Morton's Gap in 1888 and was appointed Postmaster under President Harrison. He was an intimate friend of Gen. Shackleford and served through the war of the Rebellion in the Federal army. He was the father of the present Postmaster at Morton's, Mr. R. L. Williams.

### SIXTEENTH ANNUAL MEETING

OF THE

Great Hopkins

County Fair,

MADISONVILLE, KY.,

AUGUST

24, 25, 26 and 27,

1898.

Wednesday, Thursday, Friday

and Saturday.

Conducted on a scale of magnitude

never attempted by any other Fair

in Western Kentucky. Suc-

ceeds on its merits and

growing in popular-

ity and interest

every year.

Enterprising methods, honest repre-

sentations, unusual entertain-

ment, admirable facilities.

No Gambling.

No Drunkenness.

No Misconduct.

A clean gathering; a clean management.

Recognized as the One Great Fair of

Western Kentucky. Prepare to

come; prepare to exhibit some

product of the soil or of

your handiwork.

Wednesday, the first day of the Fair, is Free

Children's Day. Special program ar-

ranged for their amusement. Every-

thing as advertised.

OFFICERS FOR 1898:

Jno. B. Atkinson, Director-in-Chief,

C. C. Givens, Pres't.

B. E. Laffoon, Vice-Pres't.

H. H. Holeman, Sec.

R. C. Tapp, Treas.

**THE EXCELLENCE OF SYRUP OF FIGS**  
is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe or nauseate. In order to get its beneficial effects, please remember the name of the Company—
